3. Book of the Month

Executive Board Member, Bruce Eschler, shared an experience where an educational mentor reminded him of the importance of relationships in education. He shared the book *Every Connection Matters: How to Build, Maintain, and Restore Relationships Inside the Classroom and Out* by Michael Creekmore and Nita Creekmore. The book talks about the keys for successful relationships: Trust, Authenticity, Respect and Communication and explains how to move from connections to relationships. This book is a must for all educators. Read the full book review at the following link:

This will be a busy month and will come and go quickly. Remember to encourage your students and staff to **end strong** this school year.
